Beach Walk Scavenger Hunt

Can you find all six things on the beach near PTMSC? Draw or take a picture of the things as you find them, and feel free to tag any cool finds @ptmarinescictr on Instagram!

Remember to be a good beach visitor! Leave natural objects where you found them, pick up any trash you see, and don't step on any plants.

Find the coolest rock on the beach.

What makes it cool?

How do you think it got there?

Find the biggest piece of seaweed you can see.

What does it smell like?

Would it look the same underwater?

Find something that doesn't belong on the beach.

What did you find?

How do you think did it got there?

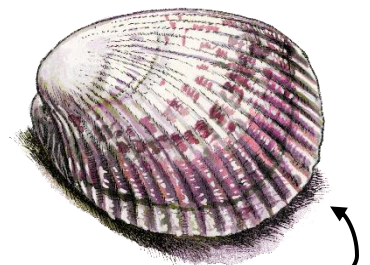

You might also see these critters:

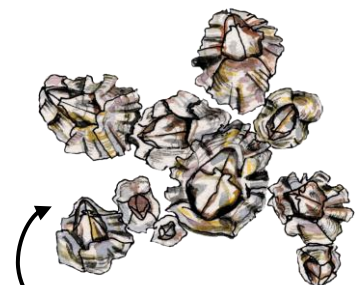

Dungeness crab

butter clam

cockle

acorn barnacle

Find signs of an animal that is no longer there.

What kind of sign did you find?

What animal do you think made it?

Find an animal that you didn't see at first.

How is it hiding?

Why do you think it hides that way?

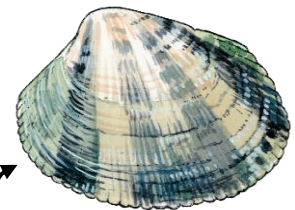

Find a plant that lives in the sand.

What does it feel like?

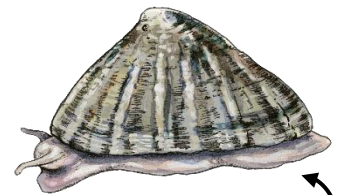

Why do you think it lives there?

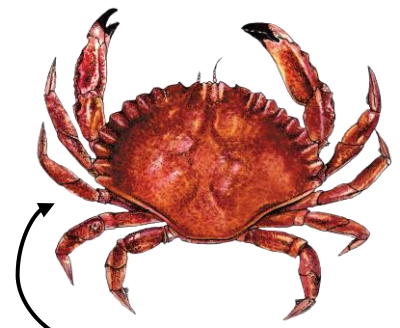

periwinkle snail

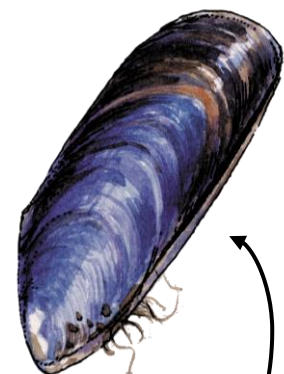

littleneck clam

shield limpet

red rock crab

blue mussel

The coolest thing I found was:
