Geology Scavenger Hunt

Draw or take a picture of the things as you find them, and tag any cool finds @ptmarinescictr on Instagram!

Remember to visit this habitat well! Leave natural objects where you found them.

Find a rock of two or more colors.
What colors are present?
What do you think it caused this?

Find a rock shaped like something interesting.
What shape do you see?
Does someone else see a different shape than you?
How do you think the rock became that shape?

Find a concretion.
What is a concretion?
And how are they formed?
Find evidence of erosion??
How do you think it was eroded?
What element may have eroded it?

How old do you think the rocks are?
What are some clues to help you figure that out?
What are your guesses?

Find a rock smaller than your pinky finger
Do you think this rock was always this small?
Where do you think it came from?

The coolest thing I found was:
